

Welcome To Rudis Token

Rudis means a wooden sword or rod, which was used in Roman gladiator training both against the palus (a post) and for mock combats between sparring partners. It was also given, along with palm branches, to the winner of a gladiatorial battle.

Whitepaper

A Binance Smart Chain (BSC) BASED PROJECT

As RUDIS is based upon BSC protocol, it is a matter of certainty that it will render the following 7 important services to the investors of this project.

1. Easy to Buy
2. It will have high demand and limited supply
3. It is highly trusted by the crypto Community
4. Easy to Withdraw and Convert
5. It will involve a low transaction fee
6. It will avoid multiple tax events
7. Rapid Growth

...

MAXIMUM RATIO OF TRUST

RUDIS has been designed to remove the central points of failure, and it will ensure the maximum ratio of trust through its traditional digital asset exchange.

HIGH SPENDING LIMITS

The RUDIS platform is designed to run at extremely high speeds. Its speed is commendable and enables us to use the account within minutes of setting up.

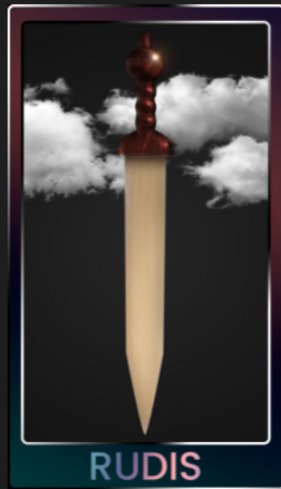

SIMPLICITY

Using the RUDIS is very simple. Even a new user on this Platform can use it easily.

A Wooden Sword Token!

Rudis means a wooden sword or rod used in Roman gladiator training both against the palus (a post) and for mock combats between sparring partners. Along with palm branches, RUDIS was also given to the winner of a gladiatorial battle.

Our Vision

Make welcome the gladiators of the future vision.

Rudis Vision enables anyone to stay connected with a global NFTs community to make digital collectibles more inclusive, diverse, and accessible with a transparent Defi integrated Rudis mobile wallet. Rudis Vision is more than just a Crypto Social Media destination; it's a vast community powered by worldwide members who sell or buy personal digital collectibles. Rudis Vision is to create one of the most connected first crypto social media platforms experiences in the world.

WHY CHOOSE RUDIS

SECURE AND FAST

A key and distinctive feature of RUDIS is that it will not let its investors down and never create any chance of investor insecurity. The fastness of its level achievements makes it a revolutionary cryptocurrency.

HUGE BUYING LIMIT

The credit goes to the RUDIS team that it does not make its program limited; rather, it will maximize its investment program to give financial benefits to the respected investors and trust builders of the project.

FULL TRANSPARENCY OF RUDIS

You don't have to worry, and all your data is in safe hands that you can trust. No one can steal your data. As no party, no bank, and no other agency is involved in the transaction process of the tokens, so the finance system is surely transparent and is based upon blockchain technology which will certainly make its customer financially strong with transparent methods.

Features

Updated versions of this whitepaper will be released in the coming months as progress is made towards the goals in our Roadmap. In the first phase, the focus will be on building and boosting RUDIS. Our team updates on marketing will be shared weekly with our investors in the coming weeks. We want to thank each of you for believing in this new project. Our team and its wonderful community will do everything possible to achieve the goals of RUDIS.
